The Global Scale of English

The Global Scale of English (GSE) is a standardized, granular scale that measures English language proficiency. Unlike some other frameworks that measure English proficiency in broad bands, the Global Scale of English identifies what a learner can do at each point on a scale from 10-90, across each of the four skills: listening, reading, speaking and writing.

Global Scale of English			80 90
CEFR			C1 C2

The Global Scale of English and the learning objectives are rooted in the CEFR

More learning objectives across all four skills

Greater granularity

Four audience specific sets of learning objectives

Each learning objective has been rated by teachers

Academic research underpins the pedagogy of course material

Personalised learning through tailored learning objectives

A standardised and granular proficiency scale 10-90

A range of Learning Objectives for Adult Learners of General

English, Academic English, Professional **English** and Young Learners

Blended learning and teaching materials, with GSE learning objectives covered per lesson

Low and high stakes assessment products including teacher guides delivering a GSE score, such as Progress, **Placement** and PTE Academic

The GSE Teacher Toolkit

Find it on english.com/gse

With Learning Objectives, Vocabulary and Grammar, the GSE Teacher Toolkit is a comprehensive, free and fully searchable online tool.

The GSE Teacher Toolkit helps you:

- Plan a curriculum, lesson or assessment
- Map existing materials to the GSE/CEFR or create new materials at the right level
- Create admin reports and give feedback

1st Edition

For teacher's access to MyEnglishLab contact your local Pearson representative.

Antonia Clare, Frances Eales, Steve Oakes, JJ Wilson

Developed in association with BBC Worldwide and BBC Learning English, **Speakout** brings the real world into your classroom.

With its authentic material from the BBC, **Speakout** exposes students to language as it is really used, giving them confidence to communicate. Lessons cover all four skills, grammar and vocabulary. Each unit ends with a lesson based around an extract from a BBC programme which provides a springboard for speaking and writing tasks. Street interview videos filmed by the BBC also give students access to authentic English.

"It's a very exciting time to be involved in learning a language because there is just so much out there. The challenge is how to make sense of it.

People realise the internet is out there and there's lots of English on it but it's very, very difficult for a student to find their way through that information. So what we tried to do is guide them carefully, so that task becomes something manageable, do-able.

These are the kinds of skills people need nowadays and this is what people are doing – researching things on the internet, so the more we can connect the classroom material with the real world out there, the better."

Larissa Petrova

In the day-to-day reality of a teacher's hard-pressed life, it's sometimes difficult to remember what teaching is really for!

I can still remember my first teaching practice in front of real students, it was terrifying! Like so many people I didn't know even the basics, so where do you find that initial knowledge or develop your skills further?

Today teachers want books that are enjoyable, informative, fun and easy to read and we hope that's what you'll find here.

Just remember, even if you're only half as good as most teachers are, something extraordinary will happen as you walk through the door and the teacher in you kicks in. It may not be the best lesson ever, nor the nicest group you've ever taught, but when the magic works, you suddenly know with a great sense of satisfaction exactly what teaching is for.

NO COPYING, SINGLE OR MULTIPLE, OF RECORDINGS IS

The law allows for a reader to make a single copy of part of a book for purposes of private study. It does not allow the copying of entire books or the making of multiple copies of extracts.

Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with CLA or an associated licensing agency and allow/use photocopying strictly in accordance with their regulations. If a school wishes to have multiple copies of a part of a book in a self-access centre, then it must purchase the necessary number of printed books. There is no formal objection to schools physically cutting printed texts into parts and reassembling them in a way that seems appropriate, providing the books or parts of books are not then resold. It is not, however, a practice we would recommend.

In the case of audio recordings, it is permissible for a school to make a copy of an audio CD or file, keeping the original as a back-up. Only one copy may exist at any one time. As an example, a school may copy different parts of an original audio recording onto several CDs, providing that no part of the original exists in more than one copy at any one time. Therefore, if a school wishes to have three copies of one part of an audio recordings, it must have three originals.
