

WORKSHEET

Pronunciation - Rhyming Snap

Photocopy and give a copy to each child. Ask the children to cut the cards into squares (possibly colouring them first). Divide the class into pairs. Get the children to mix the cards and place them face down.

To play the game

In turn the children turn over one card at a time to make a face-up pile for each player. When two cards on the face-up piles have the same sound (e.g. chair- pear) the players must race to say 'SNAP!' first. Whoever says 'SNAP!' first takes both piles of face-up cards and puts them under their face-down pile. Play continues until one player wins all the cards. That player wins the game.
