

World Flags Game

Teaching Notes

- 1 Make enough sets of flag cards (using the template on the following page) for each group of 4-5 students to have one set of flag cards each.
- 2 Split students into groups of 4-5 and have them sit around a desk or table.
- 3 Give each group of students a set of flag cards and tell them to spread them out on the desk/table face up so they can see the flags.
- 4 Explain the rules: You will call out the name of a country and the first student to slap the correct flag gets to keep the card. The person at the end of the game with the most cards wins.
- 5 If you would like to make things more difficult, you can call out names of countries that have already been called and students who slap a flag card incorrectly have to sit out for one round.
- 6 Play the game.
