

WORKSHEET

Make this special

HALLOWEEN **C**ard

1 Take a piece of blue A4 card. Fold in each side by about 6 cm so the card stands up.

2 Draw round the templates of the witch and rooftops onto black card and the moon onto yellow card. Cut out the shapes.

3 Stick the rooftop silhouette and the moon onto the back of the blue card and add little stars with white paper or white correction fluid.

4 Glue the witch onto a long cocktail stick. Make two holes in the sides of the blue card, high on the right and low on the left. Put the stick through the holes.

Learn and write this rhyme on the back of the card.

*It's a cold and starry Halloween night,
The yellow moon is big and bright,
Above the rooftops in the sky,
See the witch go flying by.*
